- 7. Accept the Terms of Use
- 8. Be sure to have the following checked, this is important:
 - Allow incoming calls
 - Allow outgoing calls
- 9. Click Accept & Continue

Accept & Continue			
	-		

- 10. Enter your phone number and password provided to you
- 11. Click Log In

12. It will ask if you wish to move calls to Mobile in areas where 3G or WiFi are unreliable.

This makes it so your phone call will transfer directly to your cell phone in poor reception areas instead of dropping the calls.

13. Enter your mobile number and click **Continue**

- 14. Once you have entered your mobile number, you will go through a brief tutorial on how to use the application
- 15. Once logged in, you will see your contacts
- 16. Click the + in the lower right hand corner to add a contact
- 17. Click the **phone icon** to view any missed, received, dialed calls.
- 18. Click the **green dial pad icon** in the lower right hand corner to make a phone call
 - Remember, if your company requires a 9 to dial out, you need to also dial
 that within the app
